

TOPP

REVIVE GRAPHITE

The REVIVE is the lightest TOPP paddle. It provides exceptional touch and control, with significant power. It is great for all skill levels and will grow with you as your game improves. The REVIVE combines the width of the XJ-900 with added reach to provide a bigger sweet spot. A great overall court paddle for your game!

Length 15.75"

Width 8.0"

Grip 4.25-4.5"

Handle 4.75"

Wt 7.3-7.5oz

Haven't used a teardrop design in years, so I tested this model a little longer than the other three Topp paddles. The demo model is very light at 7.2 oz, but seemed to provide almost as much power as the WideBODY and Reacher, with very little, to no, vibration on less than perfect hits. For players who struggle with paddle head speed, and extra weight, this paddle would seem to be a very good choice. Easy to swing and generate decent power. The shape tends to concentrate the weight in the top portion of the face, so this takes a bit getting used to, but the shape also provides better reach at the net as it is only 1/4" shorter than the Reacher. Overall a very nice paddle for someone looking for a quality paddle, large sweet spot, and easy swing.
