

ENGAGE PICKLEBALL

ELITE PRO

This is the newest version of a very popular paddle that many of our members use now, or have used in the past. Many of the Engage Pros switched to this new version just prior to the 2018 US Open and the results speak for themselves. I will post a short review soon, as weather dictates, but if you're familiar with the Elite Pro...you can't go wrong.

The NEW 'Elite Pro'

EngagePickleball won (21) of the (48) Pro level medals at the 2017 US Open. The 'Elite Pro' took (9) of them. It's now time to take your game to the next level too.

The 'Elite Pro' was created with direct input from the top players in the game to provide even more power, spin, reach and ball forgiveness (feel).

If you like Graphite paddles, you'll love this new skin technology (we call it liquid Graphite). The first ever 'chemically bonded' skin developed by Engage Pickleball. It is quickly becoming a favorite among Graphite paddle lovers and those that prefer other types of skins too.

Specifications:

Core: 'ControlPro II' Polymer (with Vibration Control Technology)

Skin: Cutting-Edge 'Chemical Bond' (for maximum forgiveness)

Optimized to Pass Most Stringent Community Noise Requirements

Weight (Range): 7.5 - 8.3 oz

Size: 16" long x 8" wide

Grip Circumference: 4 1/4"

RETAILS FOR \$129.99
